Solidarités Jeunesses (SJ)

is a popular education movement and association that places solidarity, voluntary commitment and political will at the heart of its project. Our choices and actions are an affirmation of our vision of a society where progress is first and foremost social, where respect for people and their environment is a fundamental and shared value, and where the freedom to choose, to dream and to resist is both innate and supported.

More precisely, you will live in a **community** and will have the opportunity to participate in the organization of our **collective adventure**: everyday life, cooking great intercultural meals, proposing or/and playing games, organizing our free time... You will be assisted by 2 French facilitators during the project & leaders from your country.

For 2 weeks, through all these **diverse activities**, built in the spirit of **non-formal education**, we will have the opportunity to build together a diverse and collective vision of living and doing together ! Join the adventure !
