

Experyment Science Centre

Centrum Nauki Experyment is a modern, interactive science centre in Gdynia, Poland. Our passionate team of educators and scientists offers engaging programs and exhibitions to everyone. We love to promote science and technology education.

Our aim is to make science enjoyable and accessible for everyone, no matter their age.

One of our greatest attractions is the exhibition in which guests can explore at first hand different areas of science. We also organize lectures, and various educational workshops, science shows, not only in our centre but also around the Tricity.

The team working in Experyment includes people coming from different backgrounds, which contributes to create a diverse and fun environment in which everyone (even you!) can bring their self to the team.

Coordinating organization

Centre for Youth Cooperation and Mobility, evs@cwm.org.pl

Host Organization

Centrum Nauki Experyment

Location

Gdynia, Poland

WHAT DOES VOLUNTEERING IN EXPERYMENT MEAN?

As a volunteer, you will be working mainly in the Event Department. In that department, you will be able to participate in the organization and implementation of the many different events that the centre arrange each year (like Researchers' Night, Science com, Open'er Festival, and many others).

Creating and executing various workshops for children and adults will be part of your responsibilities. Moreover, you'll have the opportunity to use your ideas to develop these activities.

Additionally, you'll be able to participate and organize science shows, write science news on our social media, as well as attend and support the series of lectures organized by the centre.

WHAT ARE WE LOOKING FOR?

- **Enthusiastic about science and learning**
- **Happy to work with people, regardless of age**
- **Open to new challenges and experiences**
- **Team players who are willing to cooperate with each other**
- **Open-minded and ready to welcome new ideas and new cultures**
- **Patient**
- **Interested in methods of active education**

WHAT CAN YOU LEARN FROM VOLUNTEERING IN EXPERYMENT?

During volunteering in Experyment you will have the opportunity to learn more about many different areas of science, but also you'll learn more about active education and communication.

You will have a lot of space to develop your ideas, using your creativity. Working with us is a chance to improve your team-working skills along with your teaching abilities and you will become more confident in working with people of every age during workshops or science shows.

Also, it is a good opportunity to see the whole process of creating educational project, starting from brainstorming to final implementation.

WE ARE WAITING FOR YOU!
